Mt Hutt Helicopters Heli-skiing and Heli-boarding.

Welcome to your new addiction! Mt Hutt Helicopters offers some of the most accessible heli-skiing and heli-boarding in the Southern Alps. Just imagine the excitement of awaking to the sound of your very own helicopter coming to take you to experience the freedom of heli-skiing. We offer backcountry skiing and riding in over 50 named runs in 3 breathtaking ranges.

If you can do a blue run or better then YOU can heli!

The Black Hills is the perfect 3 run package for those searching to heli-ski and heli-board in pristine terrain. Let your guide take you on a mission to find the best snow of the day for an epic snow experience. Nothing beats the thrill of being flown to the top of a peak to experience fresh, untracked powder. Mt Hutt Helicopters will take you on the ultimate experience of heli-skiing and heli-boarding. The terrain in the ***Taylor Range*** caters for those looking for adrenaline pumped skiing and riding in the expanse of the backcountry, it offers some challenging chutes, steep valleys with breathtaking views of the Southern Alps. Average runs are 700 vertical meters with some offering up to 1000 vertical meters.

Ability required

One of the biggest barriers to people trying heliskiing and heliboarding is the general perception that it is difficult. We have terrain to suit all abilities and if you can tackle a 'blue' run or better, you can heliski/board.

Group Size

To ensure safety standards, group sizes are kept small. Minimum of 3 and maximum of 12 people. You will be grouped according to your ability and your guides will select the terrain best suited to your group.

Safety

All our trips are guided by the professional Alpine Guides. Alpine Guides was set up in 1967 (originally called Alpine Instruction Ltd) and is New Zealand's longest established mountain and ski guiding company. A full safety briefing is given to all clients before boarding, including how to use the transceivers and how to safely operate around the helicopter.
